TOTAL WEIGHT LOSS
-13kg

The progress and affluence of modern society has led to an increase in weight problems. People are becoming increasingly wealthy and able to indulge in an assortment of food which are easily available. Coupled with **irregular eating habits, a sedentary lifestyle, hectic workload, chronic stress and lack of exercise** obesity has become a modern pandemic.

Culprits in obesity today: Which Ones Are You Facing?

✓
Irregular eating habits

✓
Late-night eating

✓
High intake of starchy & fried foods

✓
Lack of exercise

✓
Insufficient fibre intake

✓
Excessive stress

✓
Poor sleep quality

✓
Insufficient water intake

To avoid weight gain, we must first prevent fat from accumulating in our body. Foods rich in carbohydrates, such as bread, mee, rice and cakes, as well as sugary foods, are high in calories and most likely to cause weight gain as extra calories will be turned into fat and stored in the body.

Carblo 22 is an all-natural dietary supplement made from plants and fibre to effectively block the absorption of carbohydrates and sugar, while burning away fat, allowing you to slim down naturally in just 15 days!

Before **63kg**

After **50kg**

Scientifically Approved All-Natural Plant-Based Formula

Carblo is the No.1 Weight Management Supplement in US

Carblo 22 is a 100% natural dietary supplement from the US formulated by scientists after many years of research. Featuring a perfect combination of 3 types of plant extracts and 1 dietary fibre, **Carblo 22** is truly an effective and fast-acting fat buster!

Natural Ingredients

Phaseolus Vulgaris (Phaseolamin 2250)

Inhibits the action of the carbohydrate-digesting enzyme Amylase. A large portion of ingested **carbohydrate will not be digested** due to the deactivated enzyme, resulting in a low calorie diet.

Garcinia Cambogia (Hydroxycitric Acid - HCA)

This fruit extract is widely used as a natural **appetite suppressant**. It provides a sense of fullness to curb the appetite for lower food and calories consumption. HCA also decreases fat storage rate (lipogenesis) in the body.

Forskohlii Radix (Forskohlin)

This root extract supports and promotes a high metabolism in the body. It works through the thyroid's natural pathway to increase fat metabolism (lipolysis) – also known as **fat burning** – and maintain a lean body mass.

Chitosan

Derived from the exoskeletons of crabs and prawns, chitosan is an edible fibre which acts like a sponge in the digestive tract by **absorbing oil and fat**, which are then excreted from the body.
