THE SECRET TO
FULLER, FIRMER BREASTS

Breast Development

Women's breasts start to develop at an average age of 13.

The breasts go through several stages of development before reaching their full sizes when a woman is about 18 years old. The rate of which breasts grow varies greatly and is different for each young woman. The breasts are stimulated to grow under the influence of the oestrogen hormone. If you are already 20 years old, your breasts are unlikely to grow anymore as oestrogen secretion has reached a more or less constant level, except during pregnancy.

The size of female breasts normally falls between AA Cup (petite) and EE Cup (large).

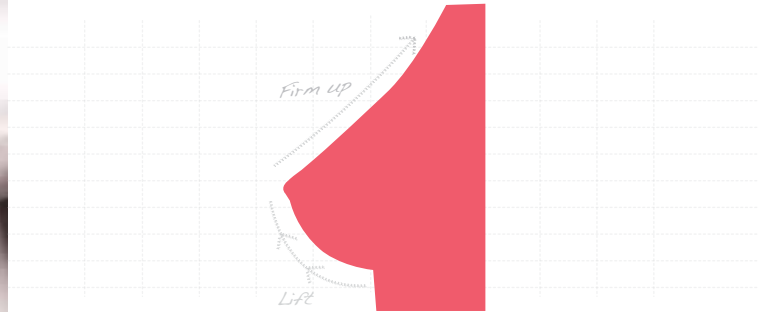

Stages of female breast development

The Ideal Bustline

An ideal bustline is determined not only by cup size, but firmness as well. Throughout the ages, extensive research has been done to find ways to achieve the ideal bustline and female silhouette.

Characteristics of the ideal breast which every woman longs for:

- ✓ Full, firm, smooth, supple and lifted
- ✓ Has a natural shape
- ✓ Proportionate to one's body frame

The perfect trio to achieve your ideal bustline.

• EXTERNAL CARE:

Be+ Bust Sublime Cream
(100ml)

Be+ Bust Sublime Serum
(100ml)

• ORAL SUPPLEMENT:

Be+ Phyto Natural
(100 tablets)

EXTERNAL CARE :

Be+ Bust Sublime Cream

Specially formulated cream that enhances breast contours and appearance by promoting breast firmness and suppleness.

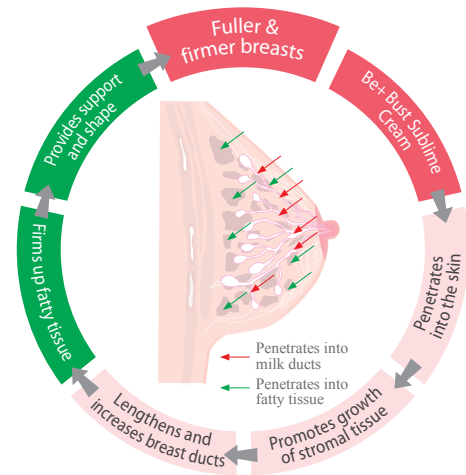

Features:

- Enhances bust contour.
- Promotes breast firmness and suppleness.
- Moisturises the skin.
- Improves breast shape and size, and creates a more pronounced cleavage.
- Stimulates blood circulation and promotes nutritional supply to the skin.

How Does It Work?

The active ingredient Methylsilanol Mannuronate normalises cellular metabolism and reduces cellulite.

Be+ Bust Sublime Cream effectively penetrates and moisturises the skin at the breasts. It has an antioxidant effect that prevents premature ageing. It also increases oxygen supply to the breast tissues and restores vitality to the ageing body, thus boosting your feminine charm and sensuality.

EXTERNAL CARE :

Be+ Bust Sublime Serum

Enriched with natural plant extracts, Be+ Bust Sublime Serum is easily absorbed into the skin upon application. Suitable for all skin types, it promotes breast health, beauty and suppleness.

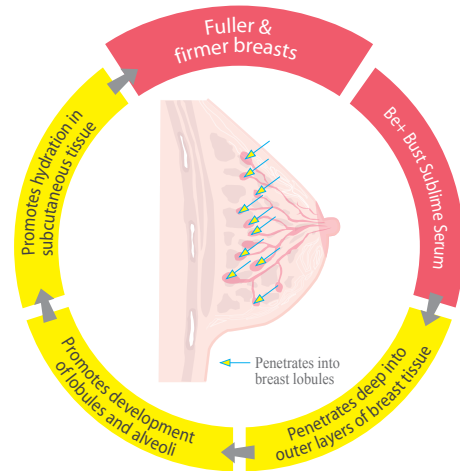

Features:

- Easily absorbed into the skin.
- Maintains collagen and elastin fibres which ensure breast firmness.
- Softens the skin; protects and repairs connective tissue in the breasts.
- Increases cup size.

How Does It Work?

Be+ Bust Sublime Serum is formulated with active ingredients which are able to slow down the rate of glycation and protect against loss of collagen and elastin, thus ensuring a firmer and more attractive bustline.

Be+ Bust Sublime Serum penetrates deep into the outer layers of breast tissue and provides additional hydration. This promotes breast growth and results in fuller and firmer breasts.

ORAL SUPPLEMENT :

Be+ Phyto Natural

Herbal bust enhancement capsules with active ingredient derived from hops which are rich in plant-based oestrogen, namely phytoestrogen 8-PN.

Features:

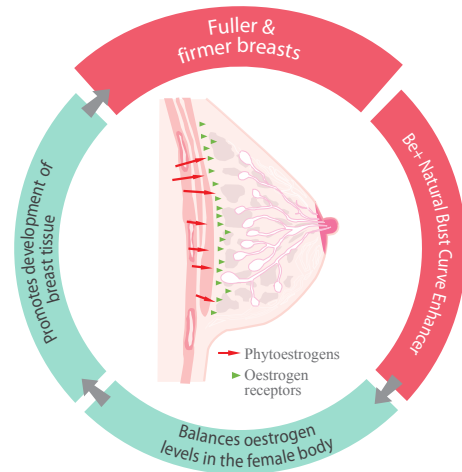

- Herbal essence for natural breast enhancement
- Provides permanent breast enlargement & firming effect.
- Stimulates development of glandular tissue.
- Safe to consume and does not cause any side effects.

How Does It Work?

Be+ Natural Bust Curve Enhancer capsules deliver phytoestrogen 8-PN derived from hops directly to oestrogen receptors in the body.

This strengthens and revitalises breast tissue and promotes natural growth of breast for fuller, sexier breasts.

Increase Your Femininity & Charm

According to research, supplementing with phytoestrogen 8-PN can increase a woman's oestrogen level, giving her:

- **Fuller and Firmer Breasts**

Promotes the growth of mammary glands and ducts, elastin synthesis and lymphatic circulation for larger, rounder and perkier breasts.

- **Supple Skin**

Increases the production of collagen and hyaluronic acid in the skin for soft, smooth and firm skin.

- **Lustrous Hair**

Extends life of hair and prevents hair loss for healthier, fuller hair.

- **Stronger Nails**

Promotes nail growth, restore toughness and prevents brittleness

- **Lower Risk of Osteoporosis**

Prevents bone loss, increases bone mass and avoids fractures.

Be+ is developed by a gynaecologist to help her female patients find relief from menopause symptoms. After taking Be+, the patients reported that besides getting relief from their menopause symptoms, their breasts had also become fuller and firmer, therefore increasing their self-confidence, charm and happiness .

Be+ effectively enlarges and lifts my breasts, giving me a deep and sexy cleavage.

" I grew up without the habit of wearing a bra. This caused my breasts to age prematurely, become saggy and lose their shape and firmness. As a model, physical appearance is very important and I felt very upset about the condition of my breasts. When I was first introduced to Be+, I just thought of giving it a try. I was very surprised when I began to feel some 'tightness' at my breasts in only 7 days. Fourteen days later, my breasts became full and supple, giving me an obvious cleavage. Today, I have firm, large breasts and a deep, sexy cleavage which increase my charm and self-confidence greatly. Thanks to Be+ my career has reached greater heights! "

With the help of 100% natural
plant extracts, my breasts have
safely enlarged by 2 cup sizes!

" I failed to eat a proper and balanced diet during puberty. Therefore, my breasts were underdeveloped. I was very upset. When my ex-boyfriend broke up with me because of my small breasts, I decided to enlarge my breasts and regain my self-confidence. Luckily I came across Be+. Its unique natural plant extracts promote further growth of my breasts, giving me fuller and shapelier breasts and an irresistible, sexy charm. To my surprise, my menstrual pain was also gone and my monthly periods have become more regular. Thank you Be+ ! "

My husband finds me more attractive and I've regained my happiness!

"After delivering and breastfeeding my child, my breasts started to sag and droop. Things got worse as I entered my 40s. Although my husband said he did not mind, I caught him glancing at women with beautiful breasts several times. This made me extremely upset. One day, I came across Be+ and started using the products at home. In only 7 days, I felt my breasts becoming fuller, firmer and lifted! Few months later, I regained large, perky and firm breasts which looked and felt like what they used to be when I was young. My husband also told me that I'd become sexier and more desirable. Nowadays, our relationship is becoming more and more passionate!"

Be+ is manufactured from specially selected dried hops from Spain.

The natural active ingredient:

High-grade Hops from Spain

Hops are the female flower cones of the hop plant (*Humulus Lupulus*) which contains 8-PN, a natural and safe phytoestrogen that is structurally and functionally closest to the female hormone oestrogen. 8-PN has a more potent oestrogenic activity than soy isoflavones.

Made from carefully selected high-grade dried hop extract from Spain rich in 8-PN, Be+ safely promotes the development of female breasts. It is an effective supplement which helps you achieve firmer and fuller breasts naturally.

Spain is one of the top producers of high-grade hops. Due to its unique properties, hops are a popular ingredient in breast enhancement products.

The latest technique :

Plant Extraction Principles

Simildiet Laboratorios in Spain uses the latest cold extraction technique to extract the active ingredients from plants under the most exhaustive quality control in response to an ever-increasing demand for phytoextracts of proven therapeutic value and of no side effects or contraindications. This technique enables the verification of the molecular structure of each plant and guarantees the correct dosage and standardisation of each batch of products manufactured.

Simildiet Laboratorios has a R&D department which works in collaboration with the Faculties of Science and Medical Clinics. As such, the effectiveness and safety of our products have been guaranteed. Rest assured that we provide you with a safe, innovative and effective range of breast enhancement products.
