

## Stay young with

**ZÉLL-V**<sup>®</sup>  
PLATINUM  
Sheep Placenta Extract

**Q** 1. What is ZÉLL-V Platinum Sheep Placenta Extract 15000mg?

**A** Made from advanced patent technology from New Zealand, Switzerland, Germany and USA, ZÉLL-V Platinum Sheep Placenta Extract is a unique Cellular Therapy containing 15000mg of fresh sheep placenta extract, essential growth factors and transfer factors.

---

**Q** 2. What are transfer factors?

**A** Transfer factors are naturally occurring molecules in the body that are necessary for boosting the immune functions. They help immune cells to identify invading germs more quickly and speed up the immune system's response to kill the germs, thus helping to maintain a perfectly healthy body.

---

**Q** 3. What are growth factors?

**A** Growth factors are naturally occurring molecules that are necessary for the cell regeneration process, particularly in the rejuvenation of organs and glands. Insufficient growth factors will impair communication between cells, thus causing a severe decrease in cell regeneration and resulting in rapid ageing.

---

**Q** 4. Where do the ZÉLL-V's placenta cells come from?

**A** ZÉLL-V's placenta cells are extracted from sheep placenta. The sheep are specially bred under the expertise of medical professionals and scientists.

---

**Q** 5. What is cellular therapy?

**A** Cellular therapy is a method which utilizes exogenous cellular material to rejuvenate and revitalize old and weakened cells of the body.

---

**Q** 6. Are these sheep cells compatible with human cells?

**A** Yes, sheep cells are compatible with and easily accepted by human cells without any rejection. Furthermore, there has been no known case of sheep diseases that have been passed on to human.

---

**Q** 7. How do the ZÉLL-V Sheep Placenta Extract softgels effectively transport the active cells into the body?

**A** ZÉLL-V Sheep Placenta Extract softgels have been enhanced with 2<sup>nd</sup> Gen enteric-coating technology to bypass the stomach's gastric acid which can harm the active cells. The softgels will then dissolve in the small intestine and release the active cells where they can be fully absorbed into the body.

---

**Q** 8. Who should take the ZÉLL-V Sheep Placenta Extract?

**A** Anybody regardless of his/her age who wants to improve the quality of his/her physical life; or facing premature ageing, has lost the sparkle of life, and feeling tired and lethargic all the time, should take ZÉLL-V.

**Q** 9. Will rapid ageing recur after quitting ZÉLL-V Sheep Placenta Extract?

**A** Yes, cells have a certain lifespan. They will degenerate with age, added with our polluted environment and stress, will definitely cause rapid ageing. Therefore we encourage continuous consumption to maintain your youthfulness.

---

**Q** 10. What makes ZÉLL-V Sheep Placenta Extract more superior to other cell therapy supplements?

**A** With the latest high-tech extraction method, ZÉLL-V Sheep Placenta Extract encapsulates 300mg of concentrated active cellular material from 15000mg of fresh sheep placenta extract (50:1). With this made possible, ZÉLL-V Sheep Placenta Extract comes with rich growth factors and transfer factors that are important for cell regeneration and protection, and that are not found in other therapeutic supplements.

---

**Q** 11. Are there any possible side effects with the ZÉLL-V Sheep Placenta cellular therapy?

**A** Over 70 years, there has never been a single reported case of side effects of any kind with cellular therapy. It has been documented in more than 50,000 medical articles worldwide as fully beneficial and effective. This product has gone through stringent tests and approval before being marketed.

---

**Q** 12. Is ZÉLL-V Sheep Placenta Extract beneficial to those who are experiencing menopausal symptoms?

**A** Menopause can cause a decline in vitality and beauty due to degeneration of organs and ageing of the skin. Consuming ZÉLL-V will be beneficial as it will improve the functions of the glands responsible for maintaining youth and beauty.

---

**Q** 13. How many softgels should we take daily? When can we see the results after consuming ZÉLL-V Sheep Placenta Extract?

**A** It should be taken orally 1 – 2 softgels a day. In about a week to three weeks, the individual will experience an increase in vigour and stamina, and a much better overall wellness but best of all, the skin complexion will improve and wrinkles, fine lines and skin dryness will decrease.

---

**Q** 14. Can I take ZÉLL-V Sheep Placenta Extract together with other nutritional supplements?

**A** Absolutely, ZÉLL-V Sheep Placenta Extract is a 100% natural biological supplement with no drugs of any kind. It is totally safe and natural.

---

**Q** 15. Has ZÉLL-V Sheep Placenta Extract earned any quality and safety credentials?

**A** Yes. ZÉLL-V Sheep Placenta Extract is manufactured under stringent quality control such as GMP (Good Manufacturing Practice) & HACCP (Hazard Analysis Critical Control Points), and in accordance to the highest pharmaceutical and laboratory safety standards of MedSafe New Zealand.
